

## AMENDMENTS TO THE SPECIFICATION

### IN THE SPECIFICATION

Please amend the Specification as specified herein in compliance with 37 C.F.R. §1.121 by replacing the identified paragraph(s) as indicated below. The amended paragraph(s) contain no new matter. A marked up version of the amended paragraph(s) showing all the changes (including any matter being added thereto or deleted therefrom) is provided below.

Specifically, please replace the paragraph beginning at page 6, line 1, with the following re-written paragraph:

**FIG. 1** is a diagrammatic illustration of a door opener according to one aspect of the present invention;

**FIG. 2** is a diagrammatic side view illustration of the door opener of **FIG. 1** according to one aspect of the present invention;

**FIG. 3** is a diagrammatic end view of the door opener of **FIG. 1** according to one aspect of the present invention;

**FIGS. 4A, 4B, and 4C** are diagrammatic illustrations of the door opener in various states of operation;

**FIG. 4-5** is a diagrammatic illustration of a trolley according to one aspect of the present invention;

**FIG. 5-6** is a diagrammatic illustration of an adjustment mechanism according to one aspect of the present invention;

**FIG. 6-7** is a diagrammatic illustration of another adjustment mechanism according to one aspect of the present invention; and

**FIG. 7-8** is a diagrammatic illustration of a spring and slip joint according to one aspect of the present invention.
